

## Southeastern Laboratories, Inc.

Total Water and Waste Water Treatment - Services and Products  
P.O. Box 10189, Goldsboro, North Carolina, 27532-0189

### SEL Cooling Water Treatment Programs

Southeastern Laboratories, Inc. provides the water treatment market with a complete line of Cooling Water Treatment - Products & Services. As a leading supplier of water and wastewater treatment chemicals, SEL is devoted to *Safety-First* in the work place **and** to the environment. Our staff of qualified professionals is dedicated to provide you with the latest and surest technologies in serving your process and cooling water system needs. SEL's product line is based on state of the art chemical technology and the SEL service philosophy is "*Second to None*". We provide "real system" results and effectiveness!

#### SEL Cooling Water Treatments include:

- \* Modern Molybdenum Inhibitors.
- \* Stabilized Phosphate Inhibitors.
- \* All Organic Inhibitor Programs.
- \* Scale/Silt/Deposit Control Products.
- \* Biofilm Control & Dispersant Products.
- \* Diverse Microbiological Treatments.
- \* Specialty Polymers & Defoamers.

**Technically Advanced Programs** are available for closed-loop, once-through, and open-recirculating water systems - including chill water/air washer systems. They are field proven, results oriented, meet today's strict environmental laws, and include the use of modern "fixed", *Drumless Delivery* systems.

**Accessory & Monitoring Equipment** is available and can be customized in SEL's broad line of chemical metering pumps, feed systems, and automated bleed/feed monitor/controller systems. We also offer a complete line of analytical equipment and reagents to monitor your program/s.

**Consulting & Technical Services** are an essential part of any successful water treatment program. Your SEL Technical Service Representative is experienced

and qualified to provide you "*First-Line*" technical expertise. He (and you) are further supported by a team of SEL Consultants and Technical Specialists assigned responsibility to each account. You get a "Results-Oriented" Service!

**Committed to Quality and Integrity** in our products and services, we would welcome the opportunity to discuss the many programs we have to offer. We believe you will find our step-by-step diagnostic approach thoroughly evaluates your systems and will outline a complete treatment program of services & products at an economical cost.

To obtain further information or schedule an on-site evaluation, please call one of our **Customer Service Representatives** at (919) 751-1001 or visit us at [www.SELaboratories.com](http://www.SELaboratories.com).
